

Faculty

Kobe Design University

Founded in 1989, KDU established postgraduate courses at the master's level in 1993 and doctorate level in 1995. As of December 2014, we have enrolled over 6500 students, of whom 430 have completed MAs and 52 PhDs. In recent years, our international exchange program has also hosted some 500 students from 34 countries, furthering our growth toward world-class educational standards.

Make design more vital

Generate living design

Imagine new technologies

Test drive different values

Re-think the body

Investigate our environment

Design for social change

Inspire the community

Create unprecedented new products

Transcend genre boundaries

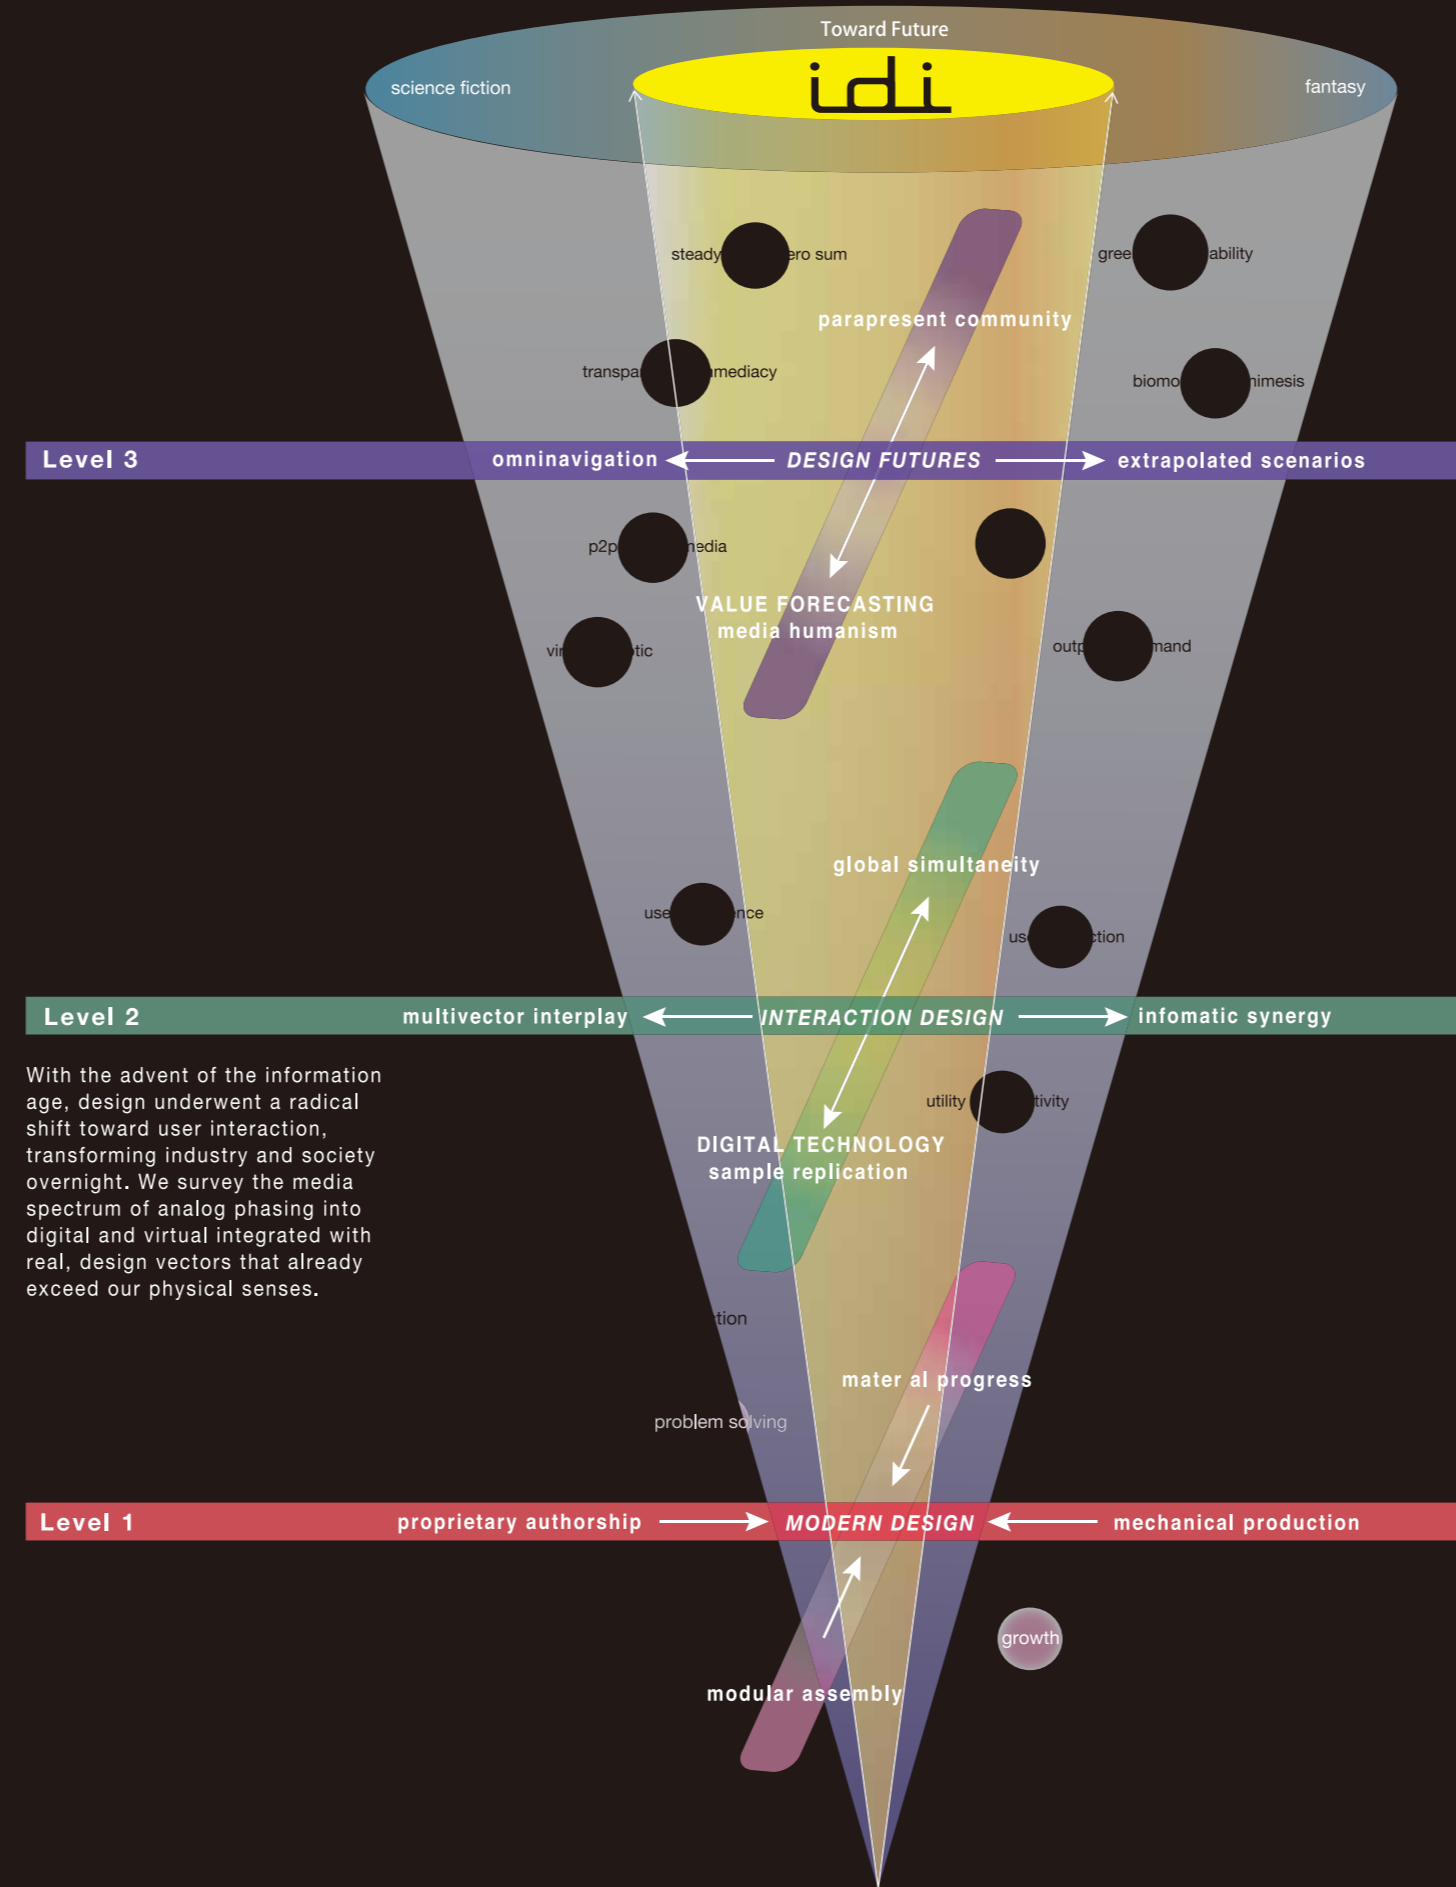

Making design come alive!  
Interaction Design full curriculum launch from 2015

- ✦ ✦ TransMode Design

Three Levels of Design / premises and lessons

With the advent of the information age, design underwent a radical shift toward user interaction, transforming industry and society overnight. We survey the media spectrum of analog phasing into digital and virtual integrated with real, design vectors that already exceed our physical senses.
